

# Osborne Park Hospital

## Graduate Midwifery Program

Osborne Park Hospital (OPH) is a fully accredited secondary hospital providing comprehensive specialist health services for the northern metropolitan suburbs. OPH was the first Australian health care site to receive Pathway to Excellence designation which recognises nursing and midwifery excellence and a positive practice environment for nurses and midwives.

It is part of the Sir Charles Gairdner Osborne Park Health Care Group (SCGOPHCG) within the North Metropolitan Health Service. Visit OPH Website for graduate information at:

[www.oph.health.wa.gov.au/JobVacancies/GNP.html](http://www.oph.health.wa.gov.au/JobVacancies/GNP.html)

### Our Vision

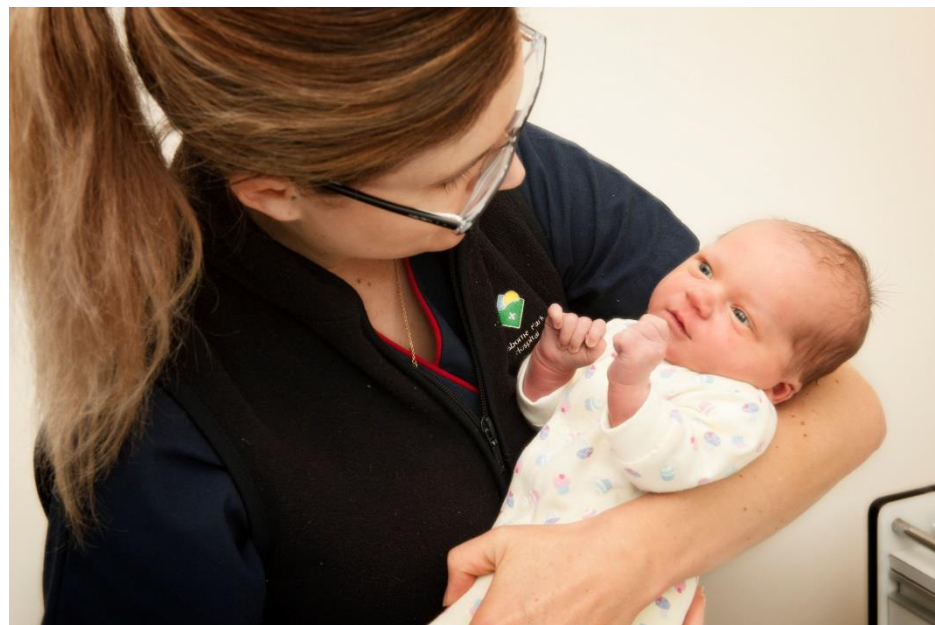

SCGOPHCG Exceptional care from dedicated people

### Our Motto

We put patients first

### Our Values

Care, Respect, Innovation, Teamwork, Integrity

### About Osborne Park Hospital

Osborne Park Hospital has specialist services including: obstetric and gynaecological services, rehabilitation and sub-acute services for younger and older adults, general medicine, theatres, elective general and specialist surgery, as well as an endoscopy and day procedure unit on site.

Osborne Park Hospital is easily accessible from the Mitchell Freeway and only 13 kilometres from Perth CBD. There are good transport networks around the hospital and free parking is available to staff and visitors.

### Why choose Osborne Park Hospital Graduate Midwifery Program?

Graduate Midwives at Osborne Park Hospital are given the opportunity to strengthen and consolidate their midwifery knowledge and skill in a welcoming and supportive environment. The midwifery graduate program also promotes the development of personal and professional practice which enables smooth transition in to the role of the midwife.

The Staff Development Midwife and the whole team will provide ongoing support and guidance throughout the program.

The innovative and dynamic practice areas offered as part of the program provide graduate midwives with unlimited opportunities for professional advancement in a variety of areas. The graduate midwife is allocated to work in all areas – Antenatal clinic, antenatal/postnatal ward, Assessment unit, birth suite and Visiting Midwifery Service (VMS), with approximately 8 to 10 weeks in total in each area apart from VMS which is 2 weeks in total.

All graduates who complete their program at Osborne Park Hospital are welcome to apply for further employment if positions become available towards completion of the program via the [www.jobs.wa.gov.au](http://www.jobs.wa.gov.au) website.

## Graduate intakes

- Osborne Park Hospital (OPH) recruits graduate midwives via the Graduate Nurse Connect (GNC) application process only. Website: [www.gnc.health.wa.gov.au](http://www.gnc.health.wa.gov.au)
- OPH recruitment takes place once a year, (mid-year) via GNC for intakes commencing in February the following year.
