

Help prevent falls

Please help us to keep our patients safe by following these simple instructions.

Ask a nurse before moving the patient.

Request permission to take the patient for a walk.

Ensure all medication is given to staff.

Feel free to ask staff any questions.

Report any dizziness or drowsiness.

Ensure the patient has access to the call bell.

Ask staff before bringing in mobility equipment.

Notify nurses before leaving.

If you adjust the bed height, please lower before you leave.

Falls Risk
